Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2014-2015 educational progress for Riley Upper Elementary School. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability and teacher quality. If you have any questions about the AER, please contact Marjorie Moore, Acting Principal of Riley Upper Elementary School, for assistance.

The AER is available for you to review electronically by visiting the following web site <http://riley.livoniapublicschools.org> or you may review a copy in the main office of our school.

The AER has two major sections to it that are required by state law. The information contained in the first section was compiled by district staff. It presents relevant information about our district, our academic programs, school improvement efforts, two years of results on district developed assessments and nationally norm referenced assessments. It also includes the district's parent involvement policy and specialized programs.

The second section of the report contains information provided by the Michigan Department of Education. Based on this data, the Riley Upper Elementary staff has identified underperforming subgroups of students, including: students with disabilities for whom additional intervention and support is needed in order to increase their proficiency and to close the achievement gap in the targeted areas. In place is a multi-tiered system of support, including the use of the research-based interventions, such as a reading program entitled Leveled Literacy Intervention. In addition, ongoing professional development and dialogue focusing on strategies to support struggling learners takes place regularly. Ongoing analysis of formative assessments to determine the needs of all students is followed by the provision of targeted learning interventions to students in need. These initiatives are intended to accelerate the student achievement of subgroups, including the state's Bottom 30%, that are not meeting our school's proficiency targets.

Our collaborative efforts positively impact our school's success and student achievement.

Sincerely,

Marjorie Moore
Acting Principal
